

Kay Dickersin, PhD

Kay is Professor at the Johns Hopkins Bloomberg School of Public Health, Director of the Center for Clinical Trials, and Director of the US Cochrane Center (USCC). The USCC supports Consumers United for Evidence-based Healthcare (CUE), a partnership with health and consumer advocacy organizations, started in 2003.

Kay has taught courses on evidence-based healthcare, epidemiology, clinical trials and systematic reviews for scientists, consumers, and others. In 1994-5, she developed the original Project LEAD science curriculum for the National Breast Cancer Coalition, a course that has been expanded and refined over the past 15 years. With Musa Mayer, Kay co-developed the online course for consumer advocates “Understanding Evidence-based Healthcare: A Foundation for Action”, launched in 2007.

Kay received her MA in cell biology from the University of California Berkeley and her PhD in epidemiology from Johns Hopkins. Her major research interests are related to randomized clinical trials, trials registers, systematic reviews, publication bias, and evidence-based healthcare.
